FUNCTIONS

1. **Volume up:** Press and hold to increase volume. During BT playback mode short press to skip to the next track.

2. **Volume down:** Press and hold to decrease volume. During BT playback mode short press to skip to the previous track.

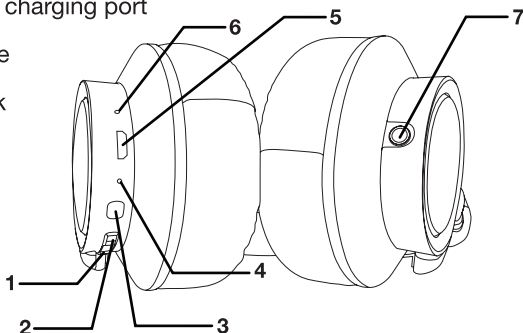

3. **Power/Play-pause:** Press for 2 seconds to power on/off. Short press to play/pause current track. While in BT mode short press to answer/hang-up during phone calls. Press for five seconds to reject calls. Press twice to redial the last number.

4. **LED indicator:** While in Bluetooth pairing mode the LED flashes alternately orange and blue. The LED will turn off when the device pairs successfully. While charging the LED indicator will be orange. Once the headphones are fully charged the LED will turn blue.

5. Micro USB charging port

6. Microphone

7. 3.5mm jack

CHARGING

1. Connect the included micro USB cable to the headphones. Connect the other end to a computer or AC adapter (not included).
2. The LED indicator will turn orange during charging.
3. Once the unit is fully charged, the LED indicator will turn blue.

LOW BATTERY

If the battery is low, the headphones will automatically turn off. Please charge at this time. If you will not be using the headphones for a long time, please charge at least once a month to maintain the battery.

BLUETOOTH PAIRING

1. Turn on the headphones by pressing the power button for 2 seconds. The LED will flash blue. The headphones will automatically enter pairing mode and the LED indicator will flash alternately orange and blue.
2. Keep your Bluetooth headphones and Bluetooth enabled device within 3 feet of each other during the pairing process.
4. Make sure Bluetooth is active on your device and that it is discoverable.
5. Look for “Rockville” in your list of available devices and select it.
6. If you are asked for a PIN or pass code, enter “0000”.
7. If pairing is successful you will hear a voice prompt and the indicator LED will turn off.

Please note: In order to pair a new device, you must unpair the currently paired device. After disconnecting, turn the headphones off and on to re-enter pairing mode.

CONNECTING MULTIPLE PHONES

1. Disconnect the first phone and restart the headphones to enter pairing status. Connect the second phone following the pairing procedures above. Once the second phone has been connected, go to the BT section of the first phone and select Rockville from your list of available devices to reconnect.
2. If you are listening to music on the first phone and wish to switch to the second phone, simply turn off the music function on the first phone and turn on the music function on the second phone.
3. If you are making a call on the first phone and a call comes in on the second phone:
 - A. Press the power button for 1 second to reject the call.
 - B. Press the power button once to end the current call and answer the incoming call.
 - C. Press the power button twice to put the current call on hold and answer the incoming call. To switch between the calls, press the power button twice. To end one of the calls, press the power button once.

USING AS WIRED HEADPHONES

1. Connect one end of the included 3.5mm cable to the 3.5mm jack on the bottom of the right ear cup.
2. Connect the other end of the cable to your external device's 3.5mm headphone jack.
3. Use the controls on your external device to control audio playback and volume. The buttons on the headphones as well as the microphone will be inactive during wired use.

TROUBLESHOOTING

Now press the power button for 2 seconds to turn on the headphones and automatically enter pairing mode.

FEDERAL COMMUNICATIONS COMMISSION

COMPLIANCE INFORMATION

Responsible party name: Rockville

Address: 600 Bayview Ave,
Entrance A,
Inwood, NY 11096

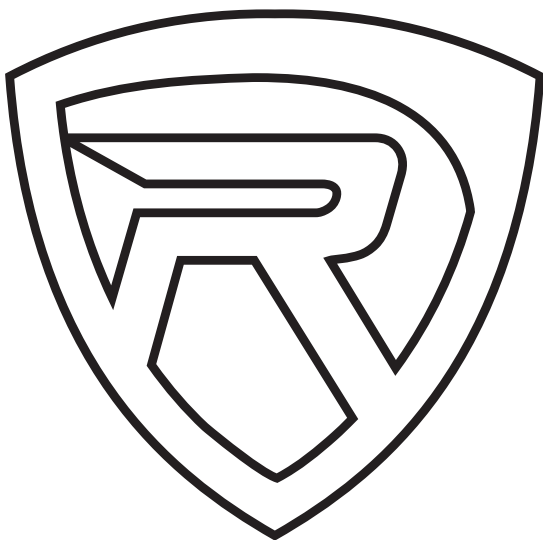

Hereby declares that the product Rockville BTH7 Bluetooth Headphones comply with FCC rules as mentioned in the following paragraph:

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
