

prompt requesting that the unit be charged.

4. While charging the LED will be red. Once the unit is fully charged, the LED will be white.

LED INDICATOR

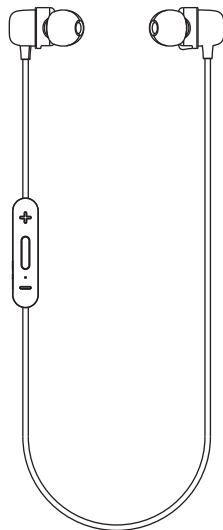

Low battery: A blinking red LED indicates low power. Please charge the earbuds soon.

Charging: A solid red LED indicates charging is in progress. A solid white LED indicates charging is complete.

Pairing: When the LED intermittently flashes red and white, the earbuds are in pairing mode.

TROUBLESHOOTING

PROBLEM	SOLUTION
I can pair my earbuds to a Bluetooth device but I cannot hear any music.	<ul style="list-style-type: none">• Make sure your device supports the A2DP profile.• Turn up the volume on your Bluetooth device.• Unpair your earbuds and re-pair to the device.
The earbuds will not go into pairing mode.	<ul style="list-style-type: none">• Make sure the earbuds are off before beginning the pairing process.• Press and hold the power button until a voice prompt is heard and the LED indicator light flashes white and red.• Check that the earbuds are charged.
My Bluetooth device is unable to pair with the earbuds.	<ul style="list-style-type: none">• Keep your earbuds and Bluetooth enabled device within 3 feet of each other during the pairing process.• Check that the device's Bluetooth feature is turned on and try repeating the pairing process.

OPERATION

Power ON: Press and hold the multi-funtion button (MFB) until the LED flashes white and red.
Power Off: Press and hold the MFB until the red LED is on.

Pairing: Press the MFB and the unit will automatically enter pairing mode. The LED indicator will intermittently flash red/white. Now look for and select EBT35 on your Bluetooth device's list of available devices. If the LED stops flashing and you hear a voice prompt, the pairing process has been successful.

- Pairing mode only lasts 180 seconds. If you miss this window of time, you must power the unit off and then on to re-enter pairing mode.
- The earbuds will automatically pair with the last paired device.
- If you leave the earbud's effective Bluetooth range, it will repair automatically if you are back in range within 3 minutes. Otherwise you will have to turn the unit off and on to pair again.
- The earbuds will turn off after 10 minutes if there is no input or connection.

Connecting Multiple Devices: To pair a second device, turn the earbuds off and repeat the pairing process. Please note you may only use one connected device at a time. If you are listening to music on the first phone and wish to switch to the second phone, simply turn off the music function on the first phone and turn on the music function on the second phone.

If you are making a call on the first phone and a call comes in on the second phone:

A. Long press the MFB for to reject the call.

B. Short press the MFB to end the current call and answer the incoming call.

C. Press the MFB twice to put the current call on hold and answer the incoming call. To switch between the calls, press the MFB twice. To end one of the calls, press the MFB once.

Volume control: In music or hands-free mode, press the Vol+ button to increase the volume or press the Vol - button to decrease the volume.

Skip songs: In music mode, long press the Vol+ button for next song or long press the Vol - button for previous song.

Pause /Play: Press the MFB to pause or play the music.

Answering ending calls: Press the MFB once to answer incoming calls or to end the conversation.

Rejecting calls: Press and hold the multi-function button for 2 seconds to reject incoming calls.

Redial: Double press the power button to redial last dialed phone number.

Siri (iPhone only): In stand-by status or while playing music, you can activate Siri by short pressing the MFB.

CHARGING

1. Connect the included micro USB cable to the headphones. Connect the other end to a computer or AC adapter (not included). Charging voltage is 5V/1A.
2. Fully charge the earbuds before the first use.
3. When the headphones have less than 10 minutes of battery time, there will be a voice
