**RPB27**

RUGGED WATER RESISTANT PORTABLE  
BLUETOOTH SPEAKER

Thank you for purchasing this Rockville RPB27 Rugged Water Resistant Portable Bluetooth Speaker.

The RPB27 is a portable Bluetooth speaker that is the perfect size and power. This speaker is big enough that our engineers were able to get the speaker to produce 20 watts of power with huge bass! It is small enough to bring it with you camping, hiking, or anywhere else. The speaker is extremely rugged! It is shockproof and IPX6 water resistant. This means you can throw it around and bring it in the shower and the speaker will never break!

There may be some similar looking Bluetooth speakers on the market but this is the only speaker at this price point that is rugged, water resistant, and has huge power with huge bass!

Please read this guide carefully for proper use of your Rockville RPB27 Rugged Water Resistant Portable Bluetooth Speaker. Should you need technical assistance please call our technical help line at 1-646-758-0144, Monday through Friday, 9am to 5pm EST.

## IMPORTANT SAFETY INSTRUCTIONS

- To reduce risk of electric shock, never open the unit. There are no user serviceable parts, refer service to an authorized Rockville service center.
- Do not expose this unit to any kind of moisture.
- Please ensure that the unit is situated in a properly ventilated area.
- Make sure the unit is placed on a level and stable surface.

## FEDERAL COMMUNICATIONS COMMISSION COMPLIANCE INFORMATION

Responsible party name: Rockville

Address: 600 Bayview Ave,  
Entrance A,  
Inwood, NY 11096

Hereby declares that the product Rockville RPB27 rugged water resistant portable Bluetooth speaker complies with FCC rules as mentioned in the following paragraph:

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
