Precautions

- To minimize the risk of improper installation, Rockville recommends that the installation of this product be performed by an MECP-Certified professional installer.
- Improper installation may cause damage to the vehicle or injury to the driver and occupants.
- Installation must be performed according to this product installation manual. Rockville is not responsible for damages or injuries resulting from installation not performed strictly in accordance with the procedures described in this manual.
- Proper installation of this product may require the use of mounting hardware not included with this product.
- Use only new, unused and properly-sized fasteners to install this product. Do not use previously-installed or worn fasteners.
- No modifications to the product or mounting hardware are permitted.
- This product is designed to be used and viewed by rear seat passengers only. The monitor screen must not be visible to the driver. Viewing by the driver while operating the vehicle will create an unsafe condition.
- Rockville does not recommend connecting hanging wires or cables to auxiliary connectors while the vehicle is in motion.
- This product must not obstruct the driver's rear view when installed or used.
- Rockville disclaims all liability for any property damage or personal injury that may result from improper or unintended installation or use of this product.

Powering the Unit

- Turn the engine key to the “ACC” or “ON” position
- Press and hold the power button for 3 seconds
- The unit will turn on.
- When the engine key is turned to the “OFF” position, the unit will turn off.

Tip: If the unit does not turn on, check to ensure all wires are connected properly. It is strongly suggested you seek out the help of a professional when installing.

Tip: Most functions can be accessed from the control panel, but more in-depth functions can only be performed with the remote.

User Interface

Unit Settings

- Adjust the unit settings for optimal playback.
- Selected items are highlighted in yellow.

Tip: To display content from an external device, use the AV/IN option found on the control panel and remote.

Switch Media Devices

- Press the “USB/SD” button to switch between Disc, SD, and USB devices.

Tip: Refer to DVD and USB/SD sections for a list of playable media formats. pg.7

SD/USB Main Menu

- Browse the files stored in the SD or USB device.

INSTALLATION GUIDE

Install Instructions:

1. To prevent short circuits, remove the key from the ignition and disconnect the terminal of battery.
2. Disconnect the original dome light.
3. Detach metal mounting plate from the Rockville unit. Release the screen from its locked position to access the necessary screws.
4. Attach the metal mounting plate to the roof using the screws. Make sure screws attach to interior roof liner.
5. Connect the wire harness in the following order:
Ground wire (Black), Battery wire (Yellow), +ACC wire (Red)
6. Attach the Rockville unit to the metal mounting plate using the screws.

WARNING:

- Be careful not to screw and puncture the exterior roof.
- Use only the screws supplied.

Install Precautions

- This unit should be installed by qualified technician or service personnel.
- This product is designed to operate with a 12V DC, grounded battery system.
- Disconnect the ground wire from the battery terminal before connecting this unit to the electrical system.
- Use proper insulation and fastening materials to prevent electrical short-circuiting.
- Do not connect the yellow wire of this product directly to the battery terminal. Do remember to connect the red wire of this product to the ACC of the ignition key switch. Failure to do so may result in draining of the battery charge prematurely.
- Do not install this product at a position that may cause injuries to the passenger(s) during an accident.
- Due to different car specifications, please ensure that the display monitor is suitably located.
- Do not install this product at a declining angle exceeding 30°.
- Do not install screws over plane surface which may affect monitor ejector retract function.

WIRING

Connect Audio (Red)

- Left audio input.

Connect Audio (White)

- Right audio input.

Connect Video (Yellow)

- Video input.

Tip: AV/IN - Use these to connect an external media device. Camera, game console, etc.

Output Audio (Red)

- Left audio output.

Output Audio (White)

- Right audio output.

Output Video (Yellow)

- Video output.

Tip: Use these to project the display onto external screens such as headrest monitor.

Black to Ground

- Connect the lead to bare metal surface on car.

Red to ACC +12V

- To 12 volt accessory power.

Yellow to Constant +12V

- To connect 12 volt constant power.

Note: When output to more than 1 external displays is desired the use of a video amplifier is recommended to preserve picture quality. (Refer to diagram below)
